Care and accommodation of the affected people, casualties, refugees and evacuated in emergency situations

Djula Lošonc
Disaster management coordinator
Care and accommodation of the affected people, casualties in emergencies involves:

- Provision of Emergency shelter (temporary accommodation),
- Tracing service and Restore family links (RFL),
- Health care,
- Psychological First Aid and Psychosocial Support
- Provision of Food and drinking Water and
- Basic Hygiene items
Objectives of Care and accommodation...

To provide:
- Physical Conditions,
- Primary physiological and social needs of individuals, Families and communities for safe, secure, healthy and comfortable temporary space for life,
- Conditions for living in emergency situations

Including as many engagements and self-organization of beneficiaries in all stages of the process with the preservation of the dignity of vulnerable people.
Care and accommodation of the affected people, casualties, refugees and evacuated persons in emergency situations is civil protection measure.

It is being implemented within the protection and rescue measures,

It is Carried out for mitigating the consequences of nature and man made disasters, by providing as more as possible favourable living conditions in emergencies

Care and accommodation - shall be directly managed by emergency situation centres and trustees of civil protection - until such time that conditions are created for the competent bodies to take over.
Law on DRR & DM regulates:

- managing the care and accommodation of affected people, casualties;
- obligations of the competent authority of the local self-government unit to plan the care of affected people and casualties;
- obligations of owners and users of facilities and premises in public use and compensation for the use of these facilities for the care and accommodation of affected people and casualties;
- the protection and rescue forces that participate in the implementation of the tasks / measures of care and accommodation of affected people and casualties.
Guidelines on the methodology for vulnerability assessment and preparation of emergency response and rescue plans defines the content of the care and accommodation plan.

The care and accommodation plan is the basic document on the basis of which the protection and rescue entities organize, prepare and carry out the care of the affected people, casualties,
Who participate in provision of the Care ...?

protection and rescue **Subjects** and the protection and rescue **forces** that participate in the implementation of the tasks / measures of care and accommodation of affected people and casualties:

**protection and rescue **subjects:**
- bodies of the local self-government unit,
- Area Organizational Units of the Sector for Emergency Situations,
- companies and other legal entities,
- citizens and associations
