DISASTER MANAGEMENT
TRAINING PROJECT
FOR SOUTH-EAST EUROPE

- EVENT REPORT -

BASIC HOT FIRE TRAINING

Ig, Slovenia

4 – 9 September 2011

1. Topic and Objective of Event and General Information

This training was Slovenian contribution to the Disaster Management Training Programme for 2011 of the Disaster Preparedness and Prevention Initiative for South Eastern Europe (DPPI SEE) and was organised by the Administration of the Republic of Slovenia for Civil Protection and Disaster Relief (ACPDR).

The training was held at the Training Centre for Civil Protection and Disaster Relief in Ig near Ljubljana.

The training “Hot Fire Training – Module A” is proved and signed by the Minister of Defence of the Republic of Slovenia.

At the training the participants gained theoretical knowledge and basic practical skills in the field of fire extinguishing, known as hot fire/flashover training. The training improved the participants' knowledge of basic skills and techniques of fire-fighting and basic operational procedures for indoor fires. The training also raised awareness on procedures and practices of fire development and behaviour in different scenarios.

The target audience were professional operational fire-fighters and commanders from the DPPI countries (1-2 per country). The number of participants was limited up to 20.

After the training, participants:

- understand the theory of fire development, fire behaviour and danger effects in different scenarios in indoor fires
- get skills in using breathing apparatus for safe use in indoor fires
- acquire basic knowledge on possible injuries and proper treatment of injuries on the scene
- gain knowledge on how to apply different techniques in fighting fires indoors
- understand basic safety rules and proper use of PPE
- get practical skills in using nozzle techniques and basic operational procedures at some scenarios on flashover situations.

Due to safety reasons the following equipment was obligatory for each participant:

- fire suit (gear) EN 469
- fire helmet EN 443
- protective gloves EN 659
- fire boots EN 345
- protective hood, 100% Nomex, double layer.

The following equipment was recommended:

- underclothing – long sleeve shirt, 100% Nomex
long trousers ,100% Nomex

The training was implemented as a combined structure of theoretical lectures and practical work given and supervised by the licensed teachers and instructors of the ACPDR Training Centre for Civil Protection and Disaster Relief, who were trained by the Swedish Rescue Services Agency.

The language of the training was English and no translation was provided. Working documents and handouts were also in English.
